We

Frequently get letters from our clients praising or thanking us for the services that we love to do. Below is an example of some reviews taken from an independant review site: CitySearch

First Lady Laura Bush, Thrilled by Photo Album

Dear

Ken, I wanted to take this opportunity to thank you for all the effort and hours you put into creating a beautiful, custom leather photo album for The First Lady, Mrs. Laura Bush. My company, as well as The History Channel, could not have asked for more - under extreme time pressure and unique requirements in terms of design; you delivered a beautiful album in a timely and professional manner.

The

album was presented to The First Lady on June 6th, 2006 at The White House in Washington, DC and featured custom cut pages as well as an inscription page. The First Lady was thrilled to receive such a touching and personalized gift. Thank you for making it happen! We will definitely be in touch with you again for our photography, leather binding and album needs.

Best Regards,

- Sarah Goodnow

Personable and Professional

We all flew to New York for my son's wedding from S.F., and we couldn't have been more pleased to have Ken Jones Fulton Studio as our photographer. The photographer is so personable and professional, all the while maintaining a connection with the wedding party and family. Danny & Iliana were married in Central Park and the photographer made everything run so smoothly. He is a new friend we hope to see again!

- Rochelle Celedon, Mother-in-law

Thinking Outside the Box

Another photographer had recommended Ken Jones Fulton Studio to shoot my wedding in Westchester and the pictures he took were so emotional! He followed people around with the camera and shot expressions and things I don't think most other wedding photographers think about. Most of the time, I did not even see him. I think he was just hiding in a corner with the camera. He even caught some expressions on my husband's face that I can laugh at now :). Thank you (for) some very unique and wonderful photos! Oh, and I love that Digital Album.

Remarkable, Beautiful and Far from Ordinary

Ken

Jones Fulton Studio photographed my wedding very professionally, very quietly and unobtrusive to the point that I forgot the photographer was there. The results were the most remarkable wedding pictures that I have yet to see in anyone else's wedding album. The photographer kind of waited for the right moments and then captured them. The only time I really noticed the photographer was when I saw him playing with the children but I guess there was a reason for that as well because the images of the kids were BEAUTIFUL! We have them framed like artwork in our home. He is not your ordinary wedding photographer...very artistic and candid in his approach to weddings and I am happy (with the pictures). Overall, it was a wonderful experience to have him at our wedding. Thanks.

- Bonnie, Bride

A Diamond in the Rough

I would recommend this photographer without hesitation...It is hard to find a photographer who is trustworthy and has so much dedication to his work that he won't stop shooting until he feels satisfied. Ken is professional, but at the same time is so laid-back that you can't help but feel comfortable when working with him,; and his rates are incredibly reasonable!

- Kerri Ford, Client
